Nilfisk Upright vacuum cleaners

Nilfisk GU 305/355/355-DUAL/455-DUAL

A vacuum cleaner you can trust

An upright vacuum cleaner represents walk-and-clean convenience, and for carpeted flooring in particular, there is no better answer.

Incorporating all the latest technology that one expects from a market leader, the new Nilfisk GU series of uprights is designed to clean quickly, quietly and efficiently. With high-grade filtration and a HEPA filter option on all models, these upright vacuums secure a good indoor air quality. They can be used for offices and hotels as well as in hospitals, nursing homes and elderly-care facilities.

Easy to use, easy to handle, and built to withstand the inevitable knocks of everyday use, the new Nilfisk GU series takes upright vacuuming to a new level of efficiency.

The body can be lowered all the way to the floor allowing these Nilfisk upright vacuums to clean around and under furniture. The hose and tube makes overhead and detail cleaning easy

Features that you expect from a leader

- Easy to use and operator friendly, these upright vacuums are lightweight and have a carrying handle for easy transfer from room to room
- Flat to the floor design for cleaning under furniture
- On-board extension hose and tube for cleaning hard-to-reach areas
- Durably built for longer working life
- Full access to brush and airways for easy cleaning
- Low noise level makes cleaning easy at any time, even in sound-sensitive areas
- Excellent filtration system, HEPA available for all variants, means that even the tiniest dust particles are trapped for good indoor air quality
- Adjustable brush height to suit all floor surfaces

The dust bag is 'universally' sized and is easy to interchange

A HEPA 13 filter is optional for all models in this series so that the machine can be used where maximum dust filtration is required

The handle is adjustable so that it is comfortable to use regardless of the user's height. Lowering of the body allows cleaning beneath furniture

The brush is easily accessed without the need for tools for easy replacement, maintenance and cleaning

Easy access to suction hose for removal of any blockages that may arise

Indicators guide the user
